ENGLISH PAPER

“Funny Short Stories”

Hello dears how are you? I suppose you are all at home doing this “cuarentena” that will help all of us stop Coronavirus. Be calm, take it easy and enjoy these days with your family.

Remember that we have already talked about the activity concerning the funny stories we have read at the computer lab and as we are not going to meet at school for the next days I need you to send me your comments about the one you have chosen.

As now you can not retell the story orally I ask you to prepare not a summary of it, but a comment following more or less this guide:

- Why you chose the story
- Which part did you find the funniest part in the story?
- Do you think the end is appropriate why?
- What do you prefer funny, motivational, science fiction or any other kind of stories?

When correcting your paper I will evaluate:

- ✓ your creative ideas in developing your answers
- ✓ your appropriate language
- ✓ the acceptable use of good English

you have to send your papers to garcialiliana.2104@gmail.com up to Tuesday 31st March

In case you haven't got the web page I send you it <https://academictips.org/blogs/funny-short-stories/>

See you soon I love you treasures!!!
